## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The dependency of claim 30 should be "29", not --9--. Further, there is no basis for the "wherein" clause, as no means or structure has been set forth that may be considered to provide the claimed functional result.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 29 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bowerman in view of Schultz. Bowerman discloses an upright vacuum cleaner with a sensor means of pressure type for sensing when the dust container is clogged, the sensor feeding means for shutting off the suction motor. Schwartz discloses a thermal sensor for accomplishing the same purpose (see column 2, lines 10-12). Because the thermal type device is much simpler, less cumbersome, and obviously less expensive than the complicated Bowerman apparatus, it would have been obvious to one skilled in the art to have substituted the Schwartz thermal device for the pneumatic device of Bowerman.

### *Allowable Subject Matter*

5. Claim 30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 1744

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
